

Convoy Protest CCG Meeting Minutes

Attendees: Jason Reynar, Chief Laforet, Shelby Askin Hager, Jelena Payne, James Chacko, Chris Nepszy, Joe Mancina, Jason Moore, Chief Mizuno, Deputy Bellaire, Ryan Lemay, Carolyn Brown, Drew Dilkins, Andrew Teliszewsky, Tyson Cragg, Phong Nguy, Chris Grant, Emily Bertram, Susanne Hutnik

I. Incident Commander: Jason R

- Deputy Bellaire: No major update but we do have an influx of resources, (lost his feed)
- Chief Mizuno: Not much change on the ground. Status is the same today as yesterday and there was no activity overnight. OPP are the main units coming into the main area. Up and running at the EOC. Making plans and nothing more to report.
- Chief Laforet: Phong has made a connection with the EOC for supplies. Connected with Jen Crosby and Windsor Police. He will be the liaison between WPS and the EOC. With respect to WPS, let's not do anything to affect their response. Had a meeting yesterday with WRH. They were contacted by Ontario Health re: CBRN and they are in the preparation mode for policies if they had to respond to anything. We seem to be good.
- Jason R: On the COVID side of CCG, related to the protest blockage, can we send an invitation to attend to the hospital, etc.
- Chief L: David Musyj is busy so I can be the one now, but if we know that police are going to do something, then we can engage them.
- Jason R: Matt D'Asti at the University is the connection there. The School Board may want to have a liaison with this table also. We can talk (to Chief L) offline to keep all those who are needed in the know.
- Deputy Bellaire: Any questions contact me. Staying at the EOC if anyone has any questions.

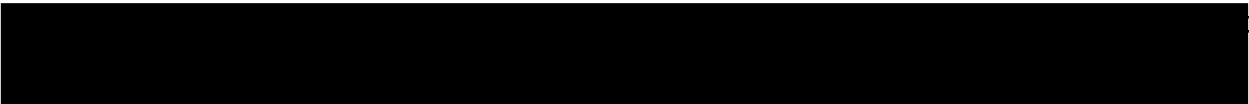

- 
- Jason R: Everyone needs to think about the following: What are long term challenges we need to plan for in each of your areas? Additional protests in the coming weeks, etc. Invite all of the section heads to see what that means, in the areas such as technology, people, processes, etc. Do we need CCTV cameras, financial flow, communications side, etc. Look at long term considerations.
- 

II. New Business

Jason M: I'm here if needed.

Tyson: Was in contact with the CVP contact on the other side in case we need to do something at the tunnel. That bus is ready there if you need it.

Chris: Parking issues starting to spill over into some of the side streets. This is changing how we operate giving tickets, etc.

Jason Reynar adjourned the meeting at 1041 hours.
